## SUMMARY

As a passionate Full Stack Web Developer with a background in Mechanical Engineering, I specialize in creating efficient and innovative web applications. My experience in full-stack development has equipped me with the technical skills necessary to analyze and visualize data effectively. Eager to contribute to dynamic teams, I'm seeking opportunities to apply my skills and grow in the tech industry

## EXPERIENCE

### Full Stack Developer

Chennai

[Guvi Geek Technologies](#)

2024 - 2025

Intern

- **Front-end Development:** Assisted in building responsive and visually engaging user interfaces using React.js, Redux, and Bootstrap. Collaborated with designers to translate UI/UX designs into interactive web applications.
- **Back-end Development:** Gain exposure to server-side development using programming languages such as Express.js, Node.js. Learn to develop APIs and handle server-side logic.
- **Database Management:** Work with databases like MySQL, MongoDB, or others. Understand how to store, retrieve, and manipulate data efficiently.

## PROJECTS

### Auction Platform (Full Stack Web Application)

Developed a full-stack Auction Platform using the MERN stack with role-based dashboards, real-time bidding, and status tracking. Features include secure login, bid history, and email notifications.

- **User:** Registers, logs in, browses auctions, filters by category or status (Live, Upcoming, Ended), places bids on live auctions, and receives bid notifications.
- **Seller:** Registers, logs in, creates and manages auctions (add/edit/delete), views bidder activity, and monitors auction status.
- **Shared Features:** Role-based dashboards, protected routes, real-time updates, and email notifications.

## EDUCATION

### BE MECHANICAL ENGINEERING

Pallavan Engineering college

2021 - 2024

### Diploma Mechanical Engineering

Sakthi Polytechnic College

2019 - 2021
